October 16, 2024

To whom it may concern,

It is my pleasure to certify that **Pranjal Pokharel** had been a part of Naamche Inc Pvt Ltd (Reg No. 247588) from 20th Feb, 2023 till 16th October, 2024. During his tenure, Pranjal demonstrated exceptional growth, culminating in his role as a **Senior Software Engineer.**

Pranjal's journey at Naamche has been marked by rapid advancement. He joined us as an intern, quickly showcasing his leadership potential and technical expertise. His swift climb through the ranks, first to Software Engineer Level 2 and then to Senior Software Engineer, is frequently cited as an example to the team.

Throughout his time with us, Pranjal's versatility can be observed through the type of projects he was involved in. Most recently, he was involved in developing the data pipelines and backend system in Python for an AI-powered homebuying platform. Prior to this, he worked on the frontend for a restaurant POS system where he developed a restaurant layout builder with drag-and-drop functionality. Even before that, he worked on a wealth management fintech solution and an LLM-powered chatbot.

What differentiates Pranjal from an average engineer is his obsession with elegant solutions and the sense of ownership he takes in any task he is assigned to. We had a great time working together with him and we are confident that he will be a valuable asset to any team. We look forward to witnessing him develop into a great software engineer.

With Regards,

Saramsha Dotel
